

Mount Arbor Nurseries

STATE OF IOWA, CERTIFICATE OF NURSERY INSPECTION.

This is to certify that the Growing Nursery Stock and Premises of the MOUNT ARBOR NURSERIES, E. S. WELCH, PROP., situated in Shenandoah, county of Page, state of Iowa, have been inspected according to the provisions of chapter 53 of the acts of the Twenty-seventh General Assembly, and that no indications have been found of the presence of the San Jose scale or other dangerous insect or plant disease. This certificate is invalid after June 1, 1902.

Certificate No. 9.

Dated August 3, 1901, Ames, Iowa.

H. E. SUMMERS, State Entomologist.

FALL OF 1901.

ESTABLISHED 1875.

WHOLESALE TRADE-LIST

OF THE

MOUNT ARBOR NURSERIES

SHENANDOAH, IOWA.

E. S. WELCH, Proprietor.

We Offer One of the Largest and Most Complete Lines of General Nursery Stock West of the Mississippi.

TO CUSTOMERS.

In presenting our Fall Trade List, I wish to thank our many patrons for the liberal patronage extended us in the past, and assure you all future orders entrusted to us will have the same careful attention as heretofore. We have added another large frost-proof packing house (size 102x126) and side track to our facilities and are better prepared than ever before for handling stock with promptness and dispatch. We have the exposure of stock reduced to the minimum. After digging, all stock is immediately sent to our large packing houses where it is graded, packed and handled under cover. Customers may rely upon receiving stock in prime condition.

To those not acquainted with our establishment, this is the twenty-sixth year of our nursery and the tenth year under the present management, during which time the business has been more than doubled.

Our season for the growth of stock has been favorable. While many sections have suffered from drouth we have had ample moisture to produce an excellent growth and our stock will grade, if any difference, better than usual.

Everything offered is young, thrifty, well-grown stock and will be graded to the highest standard.

Special quotations on large orders.

Send us your list of wants for prices.

LOCATION AND SHIPPING FACILITIES.

We are located in southwest Iowa, fifty miles from Omaha, on well drained upland and have a fertile soil that cannot be surpassed in the United States. Three railroads (C. B. & Q., Wabash, and K. & W.) afford competition in freight rates and a rapid and convenient shipping outlet in every direction. Two express companies (Adams and Wells-Fargo) also give excellent service.

With our superior facilities, perfect equipment and admirable location for growing stock; combined with our experience, we certainly are prepared to give our customers the best possible service.

TERMS AND CONDITIONS.

Shipping—Please give shipping directions, whether by freight or express; also route. If no directions are given we will forward to the best of our judgment, without assuming responsibility, as all goods travel at purchaser's risk and expense. All freight shipments released to the value of \$5.00 per cwt., unless otherwise instructed. Our shipping season usually begins about September 25th and continues throughout the winter.

Packing—Prices quoted are net, boxing and baling additional, for which we charge to cover cost. Particular care is taken to pack all stock in a thorough manner so that it will reach destination in prime condition.

Terms—Cash or satisfactory security, except we extend the usual terms of credit to known, responsible nurserymen. Orders to be sent C. O. D. should be accompanied by one-fourth cash to receive prompt attention.

Rates—Fifty trees, of not less than ten of a variety, will be furnished at hundred rates; three hundred trees of not less than ten of a variety at thousand rates. Long lists of varieties of a few trees of a kind subject to higher prices. All trees above the 3 to 4 foot grades are tied in bundles of ten in grading. Order tens and multiples of ten of a variety as far as possible.

This list abrogates all previous quotations.

Caution—We accept all orders on the condition that they shall be void should injury befall our stock from frost, hail, fire or other causes over which we have no control.

Grades—We grade carefully, in some cases by caliper, in others by height. When graded by both caliper and height the caliper must govern.

☞ Dealers wishing to pack on our grounds will find our facilities first-class and their orders will receive prompt attention.

Claims—All claims for errors and deductions must be made within ten days after receipt of goods.

Guarantee of Genuineness—While we exercise the utmost diligence and care to have our varieties true to name, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove otherwise, or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that we shall in no case be liable for any sum greater than the amount originally received for said trees, etc., that prove untrue.

For convenience in telegraphing a code word is given for each grade.

Correspondence and inspection invited.

ROOT GRAFTS.

We make a specialty of this branch of the business during the winter season and are especially well equipped for handling it. With our improved methods of packing we are able to make shipments with perfect safety at any time during the winter and spring to all parts of the United States and Canada.

Our Grafts are put up by the day (no cheap job work) by old, experienced men who have been in our employ for years and thoroughly understand their business and are interested in our success, making quality not quantity their standard. This is the secret of our large trade in this line as our Grafts grow and give satisfaction.

We are growing a large stock of Seedlings and Scions, which promise to be of excellent quality, and are prepared to name low prices for Grafts of the best quality.

Any Style of Graft Made to Order—In Apple and Crab Grafts we prefer the Piece Root Graft with a 6-inch Scion and three and one-half inch Root, planting largely of these ourselves. We make the price of Whole Root Grafts so low that those who prefer them can easily afford to buy them.

All Grafts are carefully assorted and only the best of material used in orders, so that customers can depend on getting a first-class article. Orders should be placed early to secure the best selection of varieties and to give the Grafts ample time to callous before shipment. After our Grafts are made they are tied in bundles of 100, each bunch carefully labeled, and packed away to callous.

We recommend fall plowing and planting as early in the spring as the season will permit.
